7-9 SEPTEMBER 2022
POLITECNICO DI MILANO, MILAN, ITALY
EARLY BOOKING INFORMATION
For our 50th Jubilee, the Association for European Transport will hold ETC 2022 in-person at the Politecnico di Milano, Bovisa campus. The conference has been held successfully online in 2020 and 2021 but it is acknowledged that part of the real value of ETC is in the networking opportunities, the ability to make new connections and reaffirm old professional friendships. There is no substitute for those impromptu encounters during coffee breaks when discussion among delegates generates new ideas and contacts.

*AET plans is to hold a full three-day conference at the Bovisa Campus of Politecnico di Milano. However, AET reserves the right to change the format or cancel the conference if required, in response to the emerging pandemic situation.*
WHAT TO EXPECT AT ETC 2022

The conference attracts transport policy makers, practitioners and researchers from all over Europe and beyond. ETC offers in-depth presentations on policy issues, best practice and research findings across the broad spectrum of transport. Key themes this year explore:

- **The Future of Cities**: Emerging new travel and land use patterns
- **Behaviour Change**: The impacts of the climate emergency and COVID-19 on long term travel patterns
- **Travel Data**: When will new travel patterns be stable enough to inform modelling and forecasting?
- **COVID Recovery**: Funding and financial sustainability of public transport
- **The Future of Aviation**: Compatibility of recovery and sustainability

The unique range of topics and the multi-seminar approach makes ETC the premier transport conference.

The conference programme covers supranational issues, national and local policy and the implementation of projects at a local level.

**How is the ETC programme developed?**

The conference takes an open, participative approach to the development of its programme. AET Members can join a Programme Committee where they participate in the selection of abstracts to shape the contents of the conference.

The programme committees also propose broad themes for the upcoming conference to ensure ETC stays topical and focussed on the crucial transport issues of the day.
CONFERENCE FORMAT

The conference will be held over three days from Wednesday 07 to Friday 09 September 2022. Networking opportunities and technical visits will be available throughout, with optional social events offered during the evenings.

Stimulating Sessions

A key aspect of the conference is its scope which covers the whole range of policy implications of research as well as technical details on data analyses or the design and operation of a model. Its reputation has been built on the important collaboration and knowledge transfer between policy, research and practice.

There will be a mix of plenary sessions, some debates and parallel workshop sessions. Each day, there will be a minimum of 9 parallel seminars in sessions of 1.5 or 2 hours, which include three to four papers presented in a themed session. The chair of each session ensures that there is ample time for questions and discussion of papers. Sessions will begin at 10:00, 13:00 and 16:00 hours (CEST) and registered delegates may move freely between seminars.

Special features

- Plenary sessions on key topics, with keynotes given by prominent individuals in world transport
- Presentation of over 240 papers
- Pre-conference drinks reception at Tuesday 6 September
- Civic Reception on Wednesday 7 September
- Conference Dinner on Thursday 8 September

Networking with international colleagues

The conference provides a brilliant opportunity for all participants to engage with transport experts from around the world and become part of a specialist community. During the conference, a specialised app will also provide an opportunity for online social networking.

Conference language

The language of the conference is English and all presentations will be made in English.
**Venue and location**

The Association for European Transport is excited to hold ETC 2022 at the Politecnico di Milano, Bovisa Campus, Milan, Italy.

Milan is Italy’s second largest city and is easily accessible both by land and by air. Its reputation as one of the world’s most important fashion capitals, together with its culture, architecture and its close proximity to the Italian lakes, makes Milan a popular destination for both business travel and tourism. Delegates will receive information about the exciting opportunities available to take advantage of the city’s offering.

**Accommodation and travel**

Delegates are responsible for their own travel plans and medical insurance. As Milan is a prime location for business, pleasure and the Italian Grand Prix, we recommend that ETC attendees book their travel and accommodation as early as possible. For help with sourcing accommodation, please contact Sabrina Winter: sabrina.winter@aetransport.org

**Visa and entry requirements**

Delegates who need a visa to attend the conference should ensure they apply early to the Italian Embassy in their own country as the processing of visas can take some time. The Association is able to write letters in support of visa applications. For more details please email sabrina.winter@aetransport.org

**Attendance fees**

Everyone who attends the conference pays the appropriate attendance fee for one, two or three days. This includes speakers and Programme Committee members. Delegates are now invited to book their 3-day place at the conference to benefit from an Early Booking Discount of 10%.

The Early Booking Discount applies to delegates booking **3-day attendance only**, with payment received by 30 June 2022. Bookings may be made online at: [www.aetransport.org](http://www.aetransport.org)

The Conference has been held since 1973. The Association for European Transport was formed in 1998, to take prime responsibility and provide overall leadership of the Conference.

There are almost 200 AET members based in over 35 countries and new members are always welcome. Members are invited to shape the Conference by becoming members of the Programme Committees and of the Association Council.

To find out more about how to get involved, please visit the website: www.aetransport.org or email Sanderijn Baanders: sanderijn.baanders@aetransport.org
MEMBERSHIP ADVANTAGES

AET Membership is open to both individuals and organisations, with a sliding scale of membership fee based upon the size of the organisation. Benefits of membership to our Association include:

• Growing your network with members throughout Europe
• The opportunity to help shape future conferences by participating in programme committees
• Access to AET initiatives and discussion forums through dedicated pages of the AET website
• Discounted rates at the European Transport Conference
• Facilities for publishing and disseminating research findings, and sharing practical experience
• The opportunity to participate in the running of the Association via the Board of Directors and the AET Council

The Association General Assembly

The Association for European Transport will hold its General Assembly during the conference. The annual business of the Association will be conducted and the results of the election of members to the AET Council will be announced. The General Assembly is open to all who are interested but only current members of the Association are eligible to vote at the meeting.

Programme Committees

The Programme Committees are at the centre of the planning of ETC. They reflect the membership of the Association and cover a wide span of interests and professional experience. Opportunities exist to join a Programme Committee. The Programme Committees, and their chairs, for ETC 2022 are:

• Planning for Sustainable Land Use and Transport
  Danielle Snellen, PBL, NL
• Transport Models
  David Christie, Transport for London, UK
• Transport Economics, Finance and Appraisal
  John Siraut, Jacobs, UK
• Intelligent Mobility - Management and Operations
  Henk Taale, TU Delft, NL
• Freight and Logistics
  Thierry Vannelslander, University of Antwerp, BE
• Local Public Transport
  Niels van Oort, TU Delft, NL
• Rail Planning and Policy
  Peter Endemann, Regionalverband FrankfurtRheinMain, DE
• Global Trends Impacting Transport
  Vladimir Momcilovic, University of Belgrade, RS
• Data
  Oliver Charlesworth, Bentley Systems, UK
• Aviation
  Johnny Ojeil, Arup, UK
• Young Researchers’ and Practitioners’ Forum
  André Goncalves, Sweco, UK
