

49th European Transport Conference 9 – 15 September 2021

CALL FOR PAPERS

Transport Models

Mission Statement

Transport Modelling has long been a mainstay of the programme of the European Transport Conference. We aim to showcase technical innovation in transport modelling as well as examples of best practice across the industry

As always, we welcome abstracts from authors who have completed or are in the process of completing research, or projects which move forward the theory and practice of modelling in transport policy and planning. This year, we would also like to take advantage of the flexibility of the online format and invite expressions of interest to host innovative sessions which improve the variety of the conference. Ideas could include debates, interactive events as well as traditional presentations.

Diversity and inclusion of authors and the conference audience are important to us and we will be looking to put forward a programme which reflects the diverse talent across the industry. Papers from academia are strongly encouraged.

We would encourage you to submit abstracts related to the modelling implications of the main themes of the conference:

- COVID-19 and the Consequences – transport modelling and the pandemic. How will models adapt to the new ways of working and travelling?
- The Climate Emergency – how can modelling contribute to the response to the emergency and address the resilience needed in the provision of infrastructure?
- Inclusion and Diversity – how can modelling improve the lives of those who are marginalised and for whom the pandemic has brought new challenges

In addition, we would like to hear from you about whatever work you are doing. We would also like to highlight a small number of themes for which we are planning sessions in 2021.

- The future of transport modelling
- Best practice in demand modelling
- Best practice in assignment modelling
- Aviation, airports and airport access modelling
- Pedestrian modelling
- Simulation
- Analytics
- System dynamics

Transport Models Programme Committee

Chair:

David	Christie	Transport for London (UK)
Andrew	Bamforth	Arup (UK)
Luuk	Brederode	DAT Mobility (NL)
Phil	Clarke	Jacobs (UK)
Barry	Colleary	NTA (IE)
Peter	Davidson	Peter Davidson Consultancy (UK)

49th European Transport Conference 9 – 15 September 2021

CALL FOR PAPERS

Jan	de Coster	MINT (BE)
Erik	de Romph	RoyalHaskoning DHV (NL)
Sylvie	Gayda	STRATEC (BE)
Tim	Gent	Atkins (UK)
Paul	Hanson	AECOM (UK)
Karl	Jarvis	Sweco (UK)
Marco	Kouwenhoven	Significance (NL)
Eric	Kroes	VU Amsterdam (NL)
Tudor	Mocanu	DLR (DE)
Lorenzo	Mussone	Politecnico di Milano (IT)
Paul	Read	Jacobs (UK)
Aurore	Remy	Aimsun (ES)
Charlene	Rohr	RAND Europe (UK)
Wolfgang	Scherr	SBB CFF FFS (CH)
David	Siddle	Jacobs (UK)
Howard	Slavin	Caliper Corporation (US)
Brian	Vaughan	Trans Data Solutions (UK)
Damien	Verry	CEREMA (FR)
Bryan	Whittaker	WSP (UK)
Konstanze	Winter	RWS (NL)
Roger	Witte	Department for Transport (UK)
Xiaoyan	Xie	ENPC (FR)

Important notice:

If you submit an abstract, this will go through a selection process. Each year we receive more abstracts than can be accommodated in the programme. If your abstract is selected, please be aware that others have been rejected, that the ETC organisation has invested time in devising a attractive and coherent programme and that delegates have used this programme to decide to come to the conference.

Before submitting your abstract, please make sure there is time and funding to have at least one of the authors attend the conference to present the paper and that you have/will obtain the approval needed (from management or client) to present the work in public at the time of the conference.

We do understand that sometimes circumstances change, forcing authors to withdraw. You would help us by informing us as soon as possible, preferably ample time before the conference. Last minute withdrawals or no-shows negatively affect the conference experience of your fellow transport professionals.

If you need any assistance, please contact Sally Scarlett: sally.scarlett@aetransport.org or Sanderijn Baanders: sanderijn.baanders@aetransport.org
